

Supplementary Figure S1. Sex-specific interstitial lung disease mortality rates by age group in 1999 and 2020

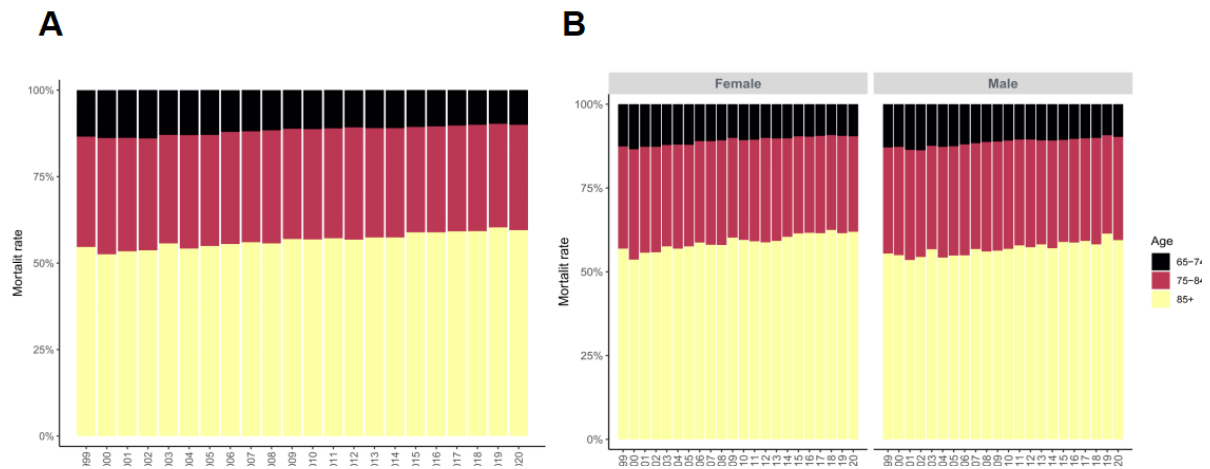

Supplementary Figure S2. Age- and sex-specific interstitial lung disease mortality rate trends and annual changes, 1999 and 2020. A – Overall rates by age group in 1999 and 2020; B – Sex-stratified rates by age group in 1999 and 2020

Supplementary Figure S3. Age- and sex-specific ILD mortality rate trends and annual changes, 1999–2020. A – Annual mortality rate change by age group; B – Annual mortality rate change by sex and age group

Supplementary Figure S4. Long-term trends in ILD mortality burden, 1999–2020. A – Annual ILD number of deaths and Age-adjusted ILD mortality; B – Annual ILD number of deaths and Age-adjusted ILD mortality by sex

Supplementary Figure S5. Long-term trends in interstitial lung disease mortality burden and age distribution, 1999–2020.

(A) Proportion of interstitial lung disease deaths by age group; (B) Age-specific mortality contribution by sex.
